*Meet Rachel\**

Rachel's early 20s were turbulent. A marriage, divorce, and substance abuse left her life in chaos with predictable financial problems. Several United Way-funded programs helped her get her life back on track. Through a domestic violence program, she found shelter and a 12-step program. She also received free financial counseling and re-established herself as financially responsible. Now employed full-time, she's ready to resume caring for her 2 children.
